CHILD ORAL MOTOR & FEEDING INTAKE

107 Longwood Avenue | Rockledge, FL 32955 | 321-338-2419

FEEDING AND/OR SWALLOWING EVALUATION

We assess and provide individualized treatment for children experiencing developmental feeding delays, oral-motor deficits, and sensory-based feeding challenges. Our services are directed toward developing the skills necessary and providing the social-emotional support to promote a positive mealtime experience.

We integrate neurodevelopmental, oral-motor, sensory and relationship-based approaches into treatment. Feeding disorders may require coordination of services from a multidisciplinary team. Additional services may be recommended if needs are identified during intake or evaluation.

Please provide information about your child's current feeding skills, primary concerns, and relevant medical or feeding history.

BEFORE SCHEDULING YOUR EVALUATION

- [ ] Feeding History and Mealtime Routines
- [ ] Food Intake Form
- [ ] 3-Day Food Log
- [ ] Relevant medical information or reports (therapy notes, hospital reports, swallow studies, etc.)

ON THE DAY OF YOUR CHILD'S EVALUATION

- [ ] Bring foods and drinks your child likes and those that are difficult (a variety of textures if applicable).
- [ ] Bring utensils your child regularly uses (bottle, nipple, spoon, fork, etc.).
- [ ] Bring your child hungry, but not uncomfortable.
- [ ] Arrive 15 minutes early with insurance card(s) and any remaining paperwork.

Questions? Call 321-338-2419.

FEEDING HISTORY AND MEALTIME ROUTINES

Today's date

Child's name

107 Longwood Avenue | Rockledge, FL 32955 | 321-338-2419

Date of birth

Age

Diagnosis

Physician

Please describe your primary concerns regarding your child's eating:

ISSUES YOU ARE TRYING TO RESOLVE (CHECK ALL THAT APPLY)

- [ ] Increase the volume of food my child eats
- [ ] Increase the texture of food my child eats
- [ ] Increase the variety of foods my child eats
- [ ] Improve cup drinking
- [ ] Improve oral motor skills
- [ ] Improve mealtime behaviors
- [ ] Decrease gagging during eating
- [ ] Decrease vomiting related to eating
- [ ] Reduce/eliminate diarrhea
- [ ] Reduce/eliminate constipation
- [ ] Increase weight gain
- [ ] Decrease tube feedings

- [ ] Resolve reflux or other GI issues

Other medical and developmental feeding history / concerns

MEDICAL AND DEVELOPMENTAL FEEDING HISTORY

- [ ] History of oxygen and ventilation support following birth

Details / onset / comments

- [ ] History of NG tube feeding

Details / onset / comments

- [ ] History of tracheotomy

Details / onset / comments

- [ ] History of G-tube feeding

Details / onset / comments

- [ ] Surgical history

Details / onset / comments

- [ ] History of poor weight gain

Details / onset / comments

- [ ] History of failure to thrive

Details / onset / comments

- [ ] History of feeding difficulties as an infant (colic, reflux, difficulty nippling, etc.)

Details / onset / comments

REFLUX, GROWTH AND MEDICATIONS

- [ ] Currently treated for reflux: Yes
- [ ] Currently treated for reflux: No

Current height percentile

Current weight percentile

Current head circumference percentile

Current medications: include medication, purpose, and dose per day.

SYMPTOMS AND BEHAVIORS

Check symptoms your child regularly experiences; add details in the comments field below.

- [ ] Spits up
- [ ] Spits up / re-swallows
- [ ] Wet burps
- [ ] Wet pillow after sleeping
- [ ] Frequent sore throat
- [ ] Hoarse voice or cry
- [ ] Arching
- [ ] Colicky/fussy behavior
- [ ] Painful swallow
- [ ] Abdominal pain/cramping
- [ ] Gagging

- [ ] Choking
- [ ] Nasal regurgitation
- [ ] Stops eating after small amounts of food/drink
- [ ] Persistent, non-seasonal cough
- [ ] Noisy breathing
- [ ] Wet, gurgly voice sounds
- [ ] Wheezing
- [ ] Frequent chest colds
- [ ] Frequent ear infections
- [ ] Hives
- [ ] Rash
- [ ] Eczema
- [ ] Itching
- [ ] Sneezing, runny nose
- [ ] Vomiting

Details about checked symptoms / behaviors

VOMITING, GAGGING, CHOKING AND DIGESTION

- [ ] Ever had a problem with vomiting
- [ ] Ever had a problem with gagging
- [ ] Ever had a problem with choking

If yes, when did the problem start?

How and when was the problem resolved?

- [ ] Vomiting during feeding
- [ ] Vomiting after feeding
- [ ] Vomiting unrelated to feeding
- [ ] Vomiting when upset

Vomiting frequency (times per day/week/month or occasionally)

Are stools usually (check all that apply)?

- [ ] Watery
- [ ] Formed
- [ ] Runny
- [ ] Pasty
- [ ] Constipated
- [ ] Foul smelling

- [ ] Ongoing constipation: Yes
- [ ] Ongoing constipation: No
- [ ] Food allergies: Yes
- [ ] Food allergies: No

If allergies, please list foods and reactions

STUDIES AND TESTING

Check studies your child has had. Please attach available reports or include the physician/hospital on your release of information.

- [ ] Chest X-ray

Date / facility for Chest X-ray

- [ ] Videofluoroscopy (X-ray to evaluate swallowing safety)

Date / facility for Videofluoroscopy (X-ray to evaluate swallowing safety)

- [ ] Upper GI series (barium swallow)

Date / facility for Upper GI series (barium swallow)

- [ ] Endoscopy

Date / facility for Endoscopy

- [ ] Gastric emptying scan

Date / facility for Gastric emptying scan

- [ ] pH study

Date / facility for pH study

☐ Allergy studies

Date / facility for Allergy studies

Comments on results of testing noted above

MEALTIME ROUTINES AND BEHAVIORS

Describe your child's daily schedule for mealtimes and snacks

How long do mealtimes usually take?

Locations where your child regularly eats and who is present

CHILD ORAL MOTOR & FEEDING INTAKE

107 Longwood Avenue | Rockledge, FL 32955 | 321-338-2419

Does your child eat better in some locations than others?

Does your child feed themself? Check all that apply.

- [ ] Holds bottle
- [ ] Uses cup
- [ ] Eats finger foods
- [ ] Uses spoon
- [ ] Uses fork

Comments about self-feeding

If your child needs help eating, who feeds them?

Does your child eat differently for different family members or caretakers?

SEATING AND POSITIONING AT MEALTIMES

- [ ] Parent's arms
- [ ] Child table and chair
- [ ] Highchair
- [ ] Adult table and chair
- [ ] Booster seat

- [ ] Does not sit for meals/snacks
- [ ] Adapted seating

Seating and positioning details

UTENSILS AND EQUIPMENT USED

- [ ] Bottle / nipple
- [ ] Cup
- [ ] Spoon
- [ ] Fork
- [ ] Plates
- [ ] Straw
- [ ] Adapted equipment

Describe utensils and adapted equipment used

FEEDING PROBLEMS AND ONSET

- [ ] Food refusal (refusing all or most foods)

Details / onset / comments

- [ ] Food selectivity by texture (textures not developmentally appropriate)

Details / onset / comments

- [ ] Food selectivity by type (narrow variety of foods)

Details / onset / comments

- [ ] Dysphagia (swallowing difficulty, painful swallow, aspiration)

Details / onset / comments

- [ ] Abnormal preferences (temperature, brands, specific cups or utensils)

Details / onset / comments

BEHAVIORS DURING MEALS OR SNACKS

- [ ] Reluctant to touch certain textures of food
- [ ] Spitting out certain textures
- [ ] Cough or gag with foods in mouth
- [ ] Pockets food in mouth
- [ ] Cannot locate or loses food in mouth
- [ ] Swallows food whole or barely chewed
- [ ] Overstuffs mouth
- [ ] Grinds teeth

- [ ] Turns head away
- [ ] Looks away from foods
- [ ] Distress with sight of foods on table
- [ ] Distress with sight of foods on plate
- [ ] Cough or gag with sight of food
- [ ] Covers ears during meal
- [ ] Distracted and inattentive during meals
- [ ] Eye blinking or watering
- [ ] Covers nose
- [ ] Cough or gag in response to smells

Details about checked mealtime behaviors

- [ ] Tea
- [ ] Smoothies
- [ ] Soda
- [ ] Juice (types)
- [ ] Caloric supplements (types/flavors)
- [ ] Other

THREE-DAY FEEDING RECORD INSTRUCTIONS

Please list everything your child eats or drinks for three days, including serving sizes. If applicable, include gastrostomy (GT) feedings. Include details such as milk or formula type, casserole ingredients, toppings, sauces, and adaptations.

Examples of helpful detail: 1 cup cornflakes; 4 ounces whole milk; 2 teaspoons sugar; 6 ounces orange juice; 2 pieces of toast with butter and jelly; 1 chicken leg, fried; 1 small baked potato with 1 teaspoon butter; 1 tablespoon peas.

Descriptions such as “a spoonful of cereal,” “juice,” “meat,” or “vegetables” without amounts and details are less helpful.

For each entry, indicate the time offered, food or liquid offered, amount eaten, and whether it was offered by the child or caregiver. Include adaptations as appropriate.
